These Centres cater towards the holistic development of students. The training through these Centres help the students to develop skills that will help them connect with industry before they step into employment. Providing such training would have twin benefits - firstly, the students will be well-prepared to enter the job market, which will positively impact their productivity at the work place and secondly, companies will be spared of the huge amounts of investments required on pre-employment training, especially in areas like soft skills. ## Centre for Employability and Corporate Relations (CECR)

The Centre for Employability and Corporate Relations (CECR) helps students in career planning through career counseling wherein they gather information about themselves in terms of their interests, aptitudes and abilities so that they can choose their careers more effectively. The Centre allows individuals to explore the world of employment and helps them to move from a general occupation direction to a specific one. Through the Career Plan form, CECR will know the exact headcount looking for final placements, going for higher studies (India & Abroad) and planning to become entrepreneurs. The Career Plan exercise will be followed by separate training programs for students opting for Final Placements, higher studies and planning to start up their own business.

### *Counselling Center*

The youth of today are on the fast track to compete with one another to excel in every field. As a flipside to it they are subjected to lot of stress and pressure. Most often these pent up emotions lead to depression or mishandled outbursts. To ease out these bottled up emotions the college has a counselling centre and guidance cell that offers comfort, relief and confidentiality. With an in house counsellor available at all time the students receive personal and professional guidance in every aspect of life.

The institution has a full time Counselor to provide guidance and to help students in their personal problems. The services of the counselor are available to the students.

As mentors, faculty guide mentees in their personal and academic matters, and maintain a record of their academic and personal profile. The mentor directs the mentee to the college counselor for guidance if needed.
