

'Lab-on-Wheels' offers hands-on learning for future innovators

BENGALURU, DHNS

The Jayantian Extension Services of Kristu Jayanti College, in collaboration with the Department of Social Work, recently inaugurated 'Yuva Avishkar', a 'Lab-on-Wheels' initiative.

During the launch, Kristu Jayanti College (Autonomous) Principal Fr Dr Augustine George said the project is collaborative by nature, adding, "This initiative pools resources from various departments to disseminate knowledge. It equips our students to excel in diverse fields while nurturing them to become responsible citizens, significantly contributing to the nation's development."

KN Prabhakaran, Chief

Kristu Jayanti College and the Department of Social Work launched 'Yuva Avishkar', a Lab-on-Wheels initiative, recently. BY ARRANGEMENT

Head of CSR at L&T Technology Services Limited, highlighted the importance of linking knowledge and skills with the right societal attitude. He praised the initiative for of-

fering students a platform to volunteer and actively contribute to social progress.

Yuva Avishkar engages students through hands-on exercises, experiments and

projects that foster creative thinking, critical thinking, problem-solving skills and talent development.

The students' models, focused on scientific principles and robotics, covered seven key aspects of holistic development: sustainability, economic growth, health, wellness, ethics, values, environment and energy.

To enhance the learning experience, the Jayantian Extension Services invested Rs 3,20,000 to procure 115 models for government schools, covering STEM concepts. These models enable students to visualise and comprehend complex scientific ideas, creating a more holistic and sustainable learning environment.
