EMPOWERMENT THROUGH LIFELONG LEARNING AND INCLUSIVENESS

In a globalised world with ever-changing technological innovations, reinventing and upgrading skills are a necessity to climb the ladder of success. The ability to learn and adapt with time and situations are crucial in changing times. Higher education institution has a vital role in moulding students to be a lifelong learner, by developing skills for teamwork, cooperation and participation actively and democratically.

Kristu Jayanti College, founded in 1999, strives to fulfil its mission to provide educational opportunities to all aspiring youth to excel in life by developing academic excellence, fostering values, creating civic responsibility and building global competencies in a dynamic environment. The college is an adobe of learning sustained on the pillars of faith, integrity, dignity and excellence. With the student-centric approach, interdisciplinary syllabus, a plethora of skill development programmes and holistic development activities, the college provides quality training for the student community to be a globally relevant, productive and innovative member of the community.

Inclusive education serves as an indispensable characteristic of modern learning. At Kristu Jayanti College, we provide holistic learning experience by modernising the provision of instruction, curricula, co-curricular, learning environments, assessment and learning outcomes to meet contemporary learning needs. Our student community from across the country and all over the world, with diverse backgrounds and far-ranging talents and interests is a testimony of the inclusive learning environment. Jayantian Glimpses is an endeavour that encapsulates the achievements and activities of our dynamic student and teaching community.

I appreciate the effort taken by the Editorial team of Jayantian Glimpses to bring out this publication.

RTI AS A HUMAN RIGHT

Kristu Jayanti College celebrated the international Human Rights Day on December 10, 2019, by organising the 39th edition of Vicharmanthan. Prof. Madabhushi Sridhar Acharyulu, Former Central Information Commissioner, Government of India, interacted with postgraduate students on 'RTI as a Human Right'.

Prof. Acharyulu explained the characteristics of human rights and the role of the state in safeguarding the right to its citizens. He explained how information could empower citizens and build a transparent and accountable democracy.

Prof Madabhushi said, "Justice hurried is justice buried". He added that justice is something that can be served only if the third party, that is the court, is involved that is the court. As the court takes account of the proof, witness and makes a fair judgement rather than falling prey to emotions. He also emphasizes on the fact that the right to information is very important and every person should be aware of the rights they possess so that they are not exploited.

"Every information is important to enforce a right. Therefore it's important to spread information and make people aware of the rights and not being exploited as imparting information empowers a person" said Prof. Madabhushi.

Citing various success stories of RTI, Prof. Acharyulu explained how the right information helps to deliver justice. "Every information is important to enforce a right. Therefore it's important to spread information and make people aware of the rights and not being exploited as imparting information empowers a person" said Prof. Madabhushi.

DEVELOPMENT IN THE FIELD OF AERONAUTICAL AND MISSILE SYSTEMS

Kristu Jayanti College organised Vicharmanthan an interactive series with global visionaries, on January 14, 2020. Dr Tessy Thomas, Director General, Aeronautic Systems, Ministry of Defence, Government of India was the resource person.

HAMLET: A THEATRE PRODUCTION

The Erudite Club, Department of English, staged Shakespeare's most famous tragedy, Hamlet, on February 5, 2020. The play entranced the spectators while they sat spellbound for almost two hours.

Hamlet is the longest play of Shakespeare and the most difficult one to enact, yet through the relentless and collective efforts of the faculty and students, the play proved to be a huge success. Right from the apparition of the ghost of Hamlet Senior in Act, I Scene I until the dual and the ensuing deaths in Act V Scene II the artists mesmerized the audience. Though it was the debut of most of the 32 actors they were able to leave an indelible mark in the minds of the audience. The actors captured the audience appealing to their emotions. The auditorium, packed with students and members of faculty echoed with applause and cheers as the scenes progressed with heightened tension, unexpected twists and suspense. They enthusiastically welcomed the poetic justice of the guilty being punished at the climax. This theatrical experience will be remembered as Prince Hamlet along with Claudius, Gertrude, Polonius, Ophelia, Laertes, Horatio and others continue to live in the minds of the spectators with a strong surge of emotions. Even after Hamlet lay dead in Horatio's arms and the curtains were dropped, the spectators remained captivated by the magic spell of the Shakespearean castle of Denmark.

Centre for Employability and Corporate Relations (CECR)

Career Support

Placements at Kristu Jayanti College have always stirred up much interest due to the visit of leading brands from various sectors. Kristu Jayanti College has a very active Centre for Employability and Corporate Relations (CECR). Every year students are placed in top multinational companies through the CECR. More than 60 corporates visit the campus for recruitment every year. The overwhelming feedback from the recruiters regarding the performance of the students, is an assurance of their trust in the quality of pedagogy adopted in Kristu Jayanti College.

The CECR takes continuous effort in bridging the gap between theory learned in the classroom and practical exposure with the corporate world through Industry Institute Interface (3i). Executives from different sectors like IT, ITES, Retail, Manufacturing, Banking and Financial Services, FMCG and Media visit the College for dynamic interaction with the students to update them with the current trends in the corporate world.

Employability Skills Development

Employability skills such as communication skills, interpersonal relationship, team work, etc., help the student to get the right job and also accelerate the pace of his/her career. In this aspect the centre provides the various courses to enhance their career growth such as introduction to communication and interpersonal skills, listening skills, group communication, team work, interviews, stress management, public speaking skills, negotiation, conflict management and event management.

GATE - Opening a Passage

The CECR starts the Placement Orientation and Training Programme by inaugurating GATE, opening a passage which is attuned to the needs of the Industry in the era of globalization and the ever-growing challenges and the complexities of business. GATE, through its multifarious training verticals aspires to mould employable, dedicated and committed individuals who are industry ready.

Udyogvichaar is a platform for corporate officials to interact with the student community and explicate the various openings in their respective companies. Interested students can choose a prospective recruiter and undergo the selection process through GATE.

CAMPUS MANAGEMENT SOLUTION

Kristu Jayanti College has initiated an online ERP on the cloud for its campus management. This solution caters to the diverse needs of campus management and office administration including admission of students, fee collection, scheduling the class time table, monitoring the student's attendance, capturing marks for the exams, etc. This decentralized architecture offered by the campus management solution makes this ERP different from its kind. A continuous evaluation of the students is carried through the two mid semester exams which assures the responsible monitoring of the students and their progress.

The online admission module helps the applicants across the globe to apply online and get timely notifications via email, regarding the status of their application. The automated fee collection process not only ensures precise and effective procedures for the office but also caters to intimate the parents and students about the various fee schedule and due in payments.

The academic discipline is the prime area of trust for the institution and therefore the efficient automation process from the academic module of the solution. These efforts and initiatives for optimizing the modern technology and IT infrastructure ensure a comfortable interaction and a transparent campus which in turn enhances the productivity and makes the institution competent enough to keep up the standards of higher education
