

5.1.3 Details of Capacity Development and Skill Enhancement Activities

2015 – 2016

4. Awareness of Trends in Technology

(Click on the Programme name to view the report)

Sl. No.	Name of the capability enhancement programme	Date of implementation (DD-MM-YYYY)	Number of students enrolled	Name of the agencies/consultants involved with contact details (if any)
1.	Awareness of trends in technology - Seminar on Corporate Life Vs Entrepreneurship	27-06-2015	170	Mr. Rajath, Senior Executive, Cognizant Technology Services, Bangalore
2.	Awareness of trends in technology - Seminar on Enterprise Application Development with Java, Spring & Cloud	04-07-2015	59	Mr. Ananthan Narayanaswamy, Senior Software Engineer, Bazaarvoice Inc, USA
3.	Awareness of trends in technology - Webinar on Beyond Excel: Enhancing your Data Analysis with MATLAB	07-07-2015	25	Mr. Adam Fillion, Applications Engineer, Mathworks
4.	Awareness of trends in technology - Seminar on Introduction to OpenGL	12-08-2015	170	Mr. Jeo Joy, Faculty Member, Department of Computer Science, Kristu Jayanti College
5.	Awareness of trends in technology - Workshop on Computer Hardware & Networking	03-09-2015	220	Mr. Janarthanan, IT Certification Professional, Salem
6.	Awareness of trends in technology - Medical IoT Workshop	16-09-2015	134	Mr. Harish Mysore, Director IEEE India Operations, Bangalore
7.	Awareness of trends in technology - Seminar on Virtualization Cloud IT Security	19-09-2015	241	Mr. Mohan Jagannath, Technology Solution Consultant, HP Global Soft, Bangalore
8.	Awareness of trends in technology - National Level Workshop on Network Simulation using NS2	18-03-2016	27	Prof. Joseph Auxilius Jude and Prof. Dinish, Faculty Members, Department of Electronic and Communication Engineering, Kongu Engineering College, Erode

Accredited 'A' Grade by NAAC | Affiliated to Bangalore University

DEPARTMENT OF COMMERCE

Seminar on Corporate Life vs Entrepreneurship

Date: 27th June 2015

Classes Attended & Number of beneficiaries: B.Com Prof (170 students)

Name and details of the resource person: Mr. Rajath, Senior Executive, Cognizant, Bangalore

Objective: The objective of the programme was to draw an analytical trajectory of Corporate life and an Entrepreneurial Life

Brief write up about the session

This session was on Corporate life vs Entrepreneur. Here we got knowledge of working for a company and being an owner of a firm. Yes we have many consequences being working in a co-operate organization and owning a business. Here a brief report on the session.

Corporate life

- Fixed Working Period.
- Salary Paid For Every Minute.
- Avoid Comfort Zone
- Work For Employees Inside Organization.
- Job Rotations.
- Attitude, Body language, Personality matters.

Entrepreneur

- No Time Period Fixed.
- No Remuneration.
- We enjoy our Comfort Zone.
- Work For Others
- No Job Rotations; He is the owner he can doing anything.
- Fund Management

We came to know the golden rules of Corporate Life

They are:

Rule 1: Boss is always right.

Rule 2: If you don't understand it; go back to Rule 1

Tech – Talk Seminar Series - I

Seminar on Enterprise Application Development with Java, Spring and Cloud

Venue: Conference Hall - I

Date: 04-July-2015

Guest: Mr. Ananthan Narayanaswamy
Senior Software Engineer, Bazaarvoice Inc (U.S.A)

Time: 11:45A.M

This session began with a silent prayer continued with welcoming and introducing the resource person Mr. Ananthan Narayanaswamy, Senior Software Engineer, Bazaarvoice Inc (U.S.A). He began his talk with an individual's thought on how to get started with a project added on to it. There was a brief discussion on the same and about the design consideration and success in the project.

The session continued with a discussion on a simple project vs an enterprises project that included when to use the right technology / tool at the right time and how a wrong technology / tool can fail the entire project and discussion continued on selecting a technology for a project. Further, there was a display on the usage of the most popular coding languages of 2015, which showed Pythons as 31.2%, Java as 19.4% etc.

The further talk was on Enterprise Application Development with Java, spring and cloud. The first discussion began with Java. To test the basic knowledge of each individual, there was a small Java quiz conducted followed by Java related videos and some facts about Java. Also, the discussion included the technologies involved in Java-like Java Micro Edition, Java Standard Edition and Java Enterprise Edition and ended the topic by the explanation on high level architecture of Java hotspot client and server VM.

Next was on spring, where the talk started with an Introduction to spring. Spring motives where the projects are mainly based on dependency injection and provide a framework to develop a project, spring runtime and ended the topic by the explanation on spring modules.

The last topic was about cloud, where the talk started with an introduction of cloud, its infrastructure, platform and software as a service and also about the popular cloud providers like Microsoft, Azure, Google Cloud, Amazon Web Services and Pivotal Cloud Foundry.

Towards the end of the session the technical expert, Mr. Anandan Narayanaswamy was thanked for being amidst us and sharing his valuable knowledge on Enterprise Application Development with Java Spring & Cloud and was handed over a memento as a token of gratitude by the Head of the Department Prof. R. Kumar.

Report on Webinar

07-July-2015

The webinar on *Data Analysis using MatLab* held on 7th July 2015. The session was handled by **Mr Adam Fillion**, who taught us about the applications of Matlab. His speech was on how we can supplement the capabilities of Microsoft Excel by providing access to thousands of pre-built mathematical and advanced analysis functions, versatile visualization tools and the ability to automate the analysis workflow. The example on Global Solar Radiation showed us how predictions could be made using a few tools like curve fitting tool, generation of code etc.

The webinar was beneficial as it provided more information on data analysis which is playing a very vital role in the research world presently. The aim of the webinar was to make students understand data analysis using Matlab.

Seminar on Introduction to openGL

Date : 12/08/2015
time : 1.45-3.30 pm
Venue : Mini Audi II
Topic of discussion : **Introduction to openGL**

Details of the resource person : Prof. Jeo Joy, Associate Prof., Dept. of Computer Science, Kristu Jayanti College, Bangalore.

Details of beneficiaries : V BCA 'A', 'B' and 'C' Section - 170 students

A brief report on the seminar:

A brief introduction to openGL was given by Prof. Jeo Joy. In this session, he covered the basic concept of openGL like Introduction to openGL, OpenGL evolution, openGL libraries like GLUT, GL, and GLU. Prof. Jeo emphasized on Software Organization, openGL functions, openGL installations and demonstration with various sample programs.

This session was very useful to the students as it was part of their academic syllabus and they gained knowledge on openGL installation and executing programs.

Workshop on Computer Hardware and Networking

Date : 3-9-2015 and 4-9-2015

Time : 9:00 a.m. to 4:00 pm

Venue : Main Auditorium

Topic : Hardware, Virtualization, Cloud and IT Security

Details of the resource person: Mr. Janardhanan, IT Certification Professional, Salem

Details of beneficiaries : I BCA/BSc (CSMS & CSME) – 220 students

A brief report of the workshop:

The workshop on “Computer Hardware and Networking” was conducted by Mr. Janardhanan, IT Certification Professional and a renowned hardware and networking specialist, on 3rd and 4th September 2015, for I semester BCA and BSc (CSMS/CSME) students. The workshop was an informative session wherein the essential components of hardware and networking were demonstrated, and the components were exhibited to the students to have a look and feel of it with a greater understanding of each. These lessons on components of computer hardware became more interesting with every component held at hand. There was a live installation process of windows 7 which benefitted the students with the basic knowledge on booting the system. He also demonstrated the assembling of the CPU with all its components. He also briefed on the process of detecting a virus and deleting it using the task manager. He also provided an insight into memory management in various operating systems. He also elaborated the features of the various kinds of CPU and RAM. The students did learn to install a new operating system and to assemble the CPU. The workshop ended with an open session where students clarified various aspects of computer hardware and networking.

MEDICAL IOT Workshop

Inauguration

16th September, 2015

9:00 a.m.

Conference Hall - II

Invocation

Welcome Address : **Dr. Ambika P**, Student Counselor
KJC - IEEE Student Branch

Felicitation : **Fr. Josekutty P D**
Principal

Inaugural Address : **Mr. Harish Mysore**
Director – IEEE India Operations

Vote of Thanks : **Mr. Munir Mohammed**
Programme Specialist, IEEE
Bangalore

Report on IEEE Medical IoT Workshop

Analysts estimate that 50 billion devices will get connected to the Internet by 2020. In this exploding Internet of Things (IoT), users, things and cloud services connect using the Internet to enable new use cases and new business models across multiple markets and applications. This seemed to be the apt and precise moment to hold an event like 'MEDICAL IoT Workshop'.

The event organized by the IEEE Bangalore chapter and EMBS Bangalore, hosted by Kristu Jayanti College, Bangalore, was scheduled for two days, 16th and 17th of October, 2015. The event had a small pre-workshop session on the 15th of October, by MediaTek, giving hands-on training with LinkIt kit. The Pre-workshop helped the participants to get a better idea on the IoT devices, how they look and what they exactly. Till the time, all had just heard about all the hype. But the introductory presentation helped to clear a lot of cloud around the topic. The session was divided into two halves: Pre-noon and after-noon session.

Participants were eager and enthusiastic about the pre-workshop session, as they had a great time exploring the possibilities of IoT, with real-time working devices built by themselves using the MediaTek LinkIt kit and Starter Kit.

The two-day medical IoT workshop was officially inaugurated on the pleasant morning of 16th October, 2015. The dignitaries of the formal inaugural function included the Director IEEE, India operations Mr. Harish Mysore, Mr. Bill Ash, IEEE Standards Association, Fr. Josekutty PD, Principal, Kristu Jayanti College, Fr. Augustine George, Vice-Principal, Kristu Jayanti College, Prof. R. Kumar, HOD, Department of Computer Science PG. The function was also attended by over 140 participants from 30 different institutions and industry. Prof. R. Kumar welcomed the gathering and wished the participants all the very best for the two-day Medical IoT Workshop. Followed by the welcome address, dignitaries lighted the lamp and inaugurated the workshop. Mr. Harish Mysore, chief-guest of the inaugural function in his inaugural address opened the eyes of the participants to the endless possibilities of IoT devices and gave a brief about the IEEE's India operations. Fr. Josekutty PD, in his address, visualized what IoT meant to people out of the industry and how they look up to this technology to open up new horizons for a better and safer future. A wonderful brief talk was made by Mr. Bill Ash on the importance of standards and the current progress in the work that he is being a part of on standardizing the IoT framework P2413. Mr. Munir Muhammed proposed the vote of thanks, and thus the inaugural function came to an end.

Remote Homecare E-Clinic

- Somshekhar & Ram Kumar, L & T Technologies

The first session of day one was a productive one. Many concepts about the IoT were discussed briefly, which gave better clarity to the discussions that were to follow. Mr. Ram Kumar gave a brief intro about the L & T Technologies divisions and how deep they are into the IoT Space. Mr. Ram was obvious on how vital this technology could be in the future, especially in the Medial Sphere. Concepts about the life cycle of a IoT transmission from FIRST MILE to the LAST MILE were discussed in deep with ample interaction with the crowd. He also gave a glimpse into L & T's IoT framework UBIQWIESE.

Mr. Somshekhar gave a live demo to the participants about the use of an IoT device. The device monitored his SPO2 levels, heart-rate and BP. Graphical visuals could be seen on the cloud. He used a device called NONIN with the L & T cloud solution to do this demonstration.

Mr. ram also answered a question raised by one of the participants about the security and accountability of these IoT devices by saying that,

“The Benefits of IoT are far outreaching the constraints and they are working on rectifying the shortcomings.”.

Building healthcare solutions using Android Devices **- Khasim Syed Mohammed & Satish Patel, Linaro**

The second session of the day, weighed more on the practical side of things. Mr. Khasim and Satish from Linaro, introduced the whole IoT topic in terms of how Android devices can be the point of contact and act as sensors. According to Mr. Khasim, android smartphones are there everywhere and everyone could now afford one, so why not use them, why not the tap the better out of these mini-super computers in our hands. He also spoke about how Google’s Project ARA will boost these proceedings further to greater speeds.

Even though Mr. Khasim talked about the theoretical side of things, the session became more active as Mr. Satish took over the session, to showcase a live demo, and teach how to do it, then and there. Mr. Satish Patel, who is currently working on modifying the android OS, specifically for Project ARA, was the apt personality to take this session. He gave 2 live demos, One using IBM’s Blue Mix Cloud and another using SAMSUNG’s SAMI service. He elaborately explained the second demo and every step in to set up to turn one’s android device to an IoT device and send data to the cloud using SAMI service.

Possibilities after Connectivity **- Nitin Mallya, GEHC**

Third and final session of the day was about what can be done after connectivity or, in other words, what are the possibilities of IoT. According to Mr. Nitin, the answer was very simple, “INFINITE”. The possibilities are endless, ranging from personal health monitors to intelligent machinery and much more. He spoke about his learning from the industry that he has experienced during his career. He emphasized on the fact how important data acquisition is and how much more important it is to make good insights from these acquired data.

Shaping Medical IoT through Standards Development **- Bill Ash, IEEE Standards Association**

Mr. Bill Ash started the proceedings of day two with an interesting topic about standards. Being associated with this field for a long time, he was able to give a comprehensive view on the subject. Also, he investigated deeper into how standards helped technology to grow and penetrate the lives of millions people effectively. Mr. Ash also gave an overview into IEEE efforts to make standard for IoT framework, namely P2413. Mr. Ash also gave an idea about

how standards are built and why standards are important, not only in IoT Framework but in every field related to technology.

Wireless Connectivity for IoT in Healthcare **- N Venkatesh, Redpine Signals**

An Electrical Engineer from IIT, Madras, talking about wireless Connectivity, the workshop couldn't get any better. Without connectivity and internet there is no IoT. Mr. Venkatesh explained about various options that an IoT device has to connect with the internet. Including Wired and Wireless, Mr. Venkatesh gave an overview of the technologies that are available today for connectivity. He also mentioned why standards play a major role in connectivity. He briefly stressed on choice of spectrum for data transfer, and also which option is preferable when. Mr. Venkatesh also mentioned Redpine Signal's own IoT platform known as 'WyzBee', which can be used for prototyping IoT projects.

Enhancing Connected Hospital Experience with Smart & Secure Medical IoT Structure **- Ravishankar Subbarao, Avaya**

Mr. Ravishankar Subbarao, gave a brief explanation about, the IoT in Medical sector. He almost drew a real-life picture of the various products that are current used in Medical sector, as well as how important it is to have a smart and secure connectivity for IoT. He also explained about how Avaya has been helping develop the Medical IoT space.

Energy Harvesting Technologies for Point of Care Medical Devices was presented

- Mr. Prabhakar T.V. (IISc).

The second last session on **Energy Harvesting Technologies for Point of Care Medical Devices was presented by Mr. Prabhakar T.V. (IISc).** The session continued for an hour and topics such as how to use devices without batteries were explained. The concepts were explained effectively using various demo such as Litting up an LED by using NFC.

Healthcare Innovations

-Ms.Parama Pal (RBCCPS)

Later the session was taken over by **Ms. Parama Pal (RBCCPS) on Healthcare Innovations.** The session was more concentrated on advancing IoT innovations in the field of Healthcare. During the session mam has demonsrated few concepts which are recently introduced in to the field of health care like AMBULETS, HAND WASH ALERT e.t.c. Amulet is a concept that helps doctors to diagnose a patient who is transported in an Ambulance without having his/her physical presence so that each patient can be monitored within the golden hour.

Seminar on Virtualization, Cloud and IT Security

19-09-2015

Time : 11:00 to 12:00 pm

Venue : Main Auditorium

Details of the resource person : Mr. Mohan Jagannath, Technology Solution Consultant,
HP Global Soft, Bangalore

Details of beneficiaries : III BCA/BSc and V BSc(CSME/CSMS) - 241 students

A brief report of the seminar:

Mr. Mohan Jagannath, Technology Solution Consultant, HP Global Soft, Bangalore, introduced himself and his career, the way he was brought up and entered the corporate world. Everyone got inspired by his determination, perseverance and hard work. He spoke on Virtualization and how it divides a computer's resources into multiple execution environments, such as hardware and software partitioning, time-sharing, partial or complete machine simulation, emulation, quality of service, and many others, which made the talk more interesting. The session gave much information about recent technologies in cloud storage. Students interacted with the speaker during the session and got benefited.

DEPARTMENT OF COMPUTER SCIENCE (PG) **REPORT ON NATIONAL LEVEL WORKSHOP ON** **NETWORK SIMULATION USING NS-2**

Date: 18.03-2016 -19.03.2016

Number of beneficiaries: 27 VI Sem MCA students

List of resource persons with details:

Session I: Prof. Joseph Auxilius Jude, ECE Department, Kongu Engineering College, Erode

Session II: Prof. Diniesh, ECE Department, Kongu Engineering College, Erode

Objectives of the Workshop:

- The objective of this hands-on program is to bring together networking researchers from both academia and industry to discuss recent advances
- To identify future directions in network simulation
- To foster interdisciplinary collaborative research in this area.
- To provide an insight into the simulation of Vehicular Ad-hoc Networks (VANETs) and Wireless Sensor Networks (WSN) using ns-2.

A brief report

In the first session of the workshop, Prof. Joseph explained about the ns-2 architecture, Wireless scenario creation, tcl programming and its basics. He also demonstrated an example program on tcl. The participants learnt about the initial settings of variables and parameters of wireless scenario related to setting each and every layer of OSI.

Day 2 Forenoon session was on Multi-Interface Routing Protocol Implementation in VANET and WSN. A hands-on practical session was given to the participants on Implementation with tcl. The post-lunch session was on Graph Generation and Trace Analysis using GREP command and the awk program. Research directions on networking also discussed in the session.
