Activities and videos encouraged students to realize and improve their communication skills.

#### **Session VII:** Interpersonal relationship by Dr. Esther Shoba

IPR- Interpersonal Skill, the prime one, helps in close association among human beings. It helps in establishing relationship with people who share same ideas, goals and common interests. A relationship can progress only when we have positive thoughts about the other individual.

Positivity can be established when one accepts the other person how they are, value each other and understand each other. These characteristics can be achieved only when we intend to listen to what others are saying. Relation with others can be in the form of family relationship, relationship with peers, love relationship, friend relationship etc., Family relationship is the one which provides unconditional love and emotional support. Peer relationship helps in the progress of the work as they are united. Relationship with friends need to be honest and reliable. Love relationship is the most fragile one and if one has to call it off, it has to be done constructively. Interpersonal relationship is very important as it helps in the growth of individual, helps in living at peace with others and also teaches patience.

Activities to explain each type of relationship helped in good understanding of the life skill.

### **Session V III: Coping with emotions by Dr .Selvam Arjunan**

Students participated in the activities with enthusiasm. The presentation was focused mainly on emotions, feeling and actions. This session helped students to face the challenges and survive at difficult situations. A detailed view on types of emotions and to control them was clearly visualized by giving them real time situations. They were also briefed about how to adapt to the scenario by meditation, yoga, etc.

### **Session IX: Critical thinking by Dr. Challaraj Emmanuel E.S.**

Critical Thinking, a logistic approach to critical thinking was conveyed to students that thinking is legitimate only when it conforms to the procedures of informal, logic and that the good thinker necessarily aims for styles of examination and appraisal that are analytical, abstract, universal, and objective. Critical thinking is not a matter of accumulating information. A person with a good memory and who knows a lot of facts is not necessarily good at critical thinking. A critical thinker is able to deduce consequences from what he knows, and he knows how to make use of information to solve problems, and to seek relevant sources of information to inform them. Critical thinking should not be confused with being argumentative or being critical of other people. Although critical thinking skills can be used in exposing fallacies and bad reasoning, critical thinking can also play an important role in cooperative reasoning and constructive tasks. Critical thinking can

help us acquire knowledge, improve our theories, and strengthen arguments. We can use critical thinking to enhance work processes and improve social institutions. . The presentation helped to enhance the thinking ability and case study activities played a major role in depicting diverse thinking ability of the students. Illusion test and small IQ puzzle tests were conducted to enhance the rapid answering ability analyzing the concept. This session was delivered creatively with stories and video presentation. This session was an interactive one and was appreciated by the students. First wave logical thinking consisted of understanding the connections between two concepts or points in thought.

- 4 square puzzle
- Finding out the suspect
- Illusion test
- Connecting points
- Maze test

**Session X: StressManagement by Mrs. Priya Josson**

This session was useful for the students as it gave them an idea about the ways in which they can cope up with stress. The activities helped in analyzing how well the students can overcome stressful situation using stability zones. The session was made more interesting with video presentation and case study of present day scenario of pear stress among the youth and different ways to overcome it.

**Session X: Use of Life skills in everyday Life by Dr. Esther Shoba**

This session summarized all the ten core life skills and their application in everyday life. The session was made interesting with various activities related to each life skill and video presentation. Five groups of students performed role play involving two life skills each. They were able to relate to day to day life.

**Beneficiaries:** BCA Students

**Date:** 18-22, June, 2018

Kristu Jayanti College had conducted a course for 1<sup>st</sup> Year BCA students from 19th June to 22nd June 2018. For teaching ten core life skills for the wellbeing of student's life...

Life Skills need for integrated happy life, for trend generation.

What are Life Skills? Life skills are behaviours that enable individuals to adapt and deal effectively with the demands and challenges of life. There are many such skills, but core life skills include the ability to: The Ten core Life Skills as laid down by WHO are:

The ten life skills are...

Self-awareness: includes recognition of 'self', our character, our strengths and weaknesses, desires and dislikes. Developing self-awareness can help us to recognize when we are stressed or feel under pressure. It is often a prerequisite to effective communication and interpersonal relations, as well as for developing empathy with others.

Empathy: To have a successful relationship with our loved ones and society at large, we need to understand and care about other peoples' needs, desires and feelings. Empathy is the ability to imagine what life is like for another person. Without empathy, our communication with others will amount to one-way traffic. Worst, we will be acting and behaving according to our self-interest and are bound to run into problems.

Critical Thinking: Is an ability to analyze information and experiences in an objective manner. Critical thinking can contribute to health by helping us to recognize and assess the factors that influence attitudes and behavior, such as values, peer pressure and the media.

Creative Thinking: Is a novel way of seeing or doing things that is characteristic of four components – fluency (generating new ideas), flexibility (shifting perspective easily), originality (conceiving of something new), and elaboration (building on other ideas).

Decision making: Helps us to deal constructively with decisions about our lives. This can have consequences for health. It can teach people how to actively make decisions about their actions in relation to healthy assessment of different options and, what effects these different decisions are likely to have.

Problem solving: Problem solving helps us to deal constructively with problems in our lives. Significant problems that are left unresolved can cause mental stress and give rise to accompanying physical strain.

Effective communication: means that we are able to express ourselves, both verbally and non-verbally, in ways that are appropriate to our cultures and situations. This means being able to express opinions and desires, and also needs and fears. And it may mean being able to ask for advice and help in a time of need. Coping with stress means recognizing the sources of stress in our lives, recognizing how this affects us, and acting in ways that help us control our levels of stress, by changing our environment or lifestyle and learning how to relax. Coping with emotions means involving recognizing emotions within us and others, being aware of how emotions influence behavior and being able to respond to emotions appropriately. Intense emotions like anger or sadness can have negative effects on our health if we do not respond appropriately.

Interpersonal relationship: skills help us to relate in positive ways with the people we interact with. This may mean being able to make and keep friendly relationships, which can be of great importance to our mental and social well-being. It may mean keeping, good relations with family members, which are an important source of social support. It may also mean being able to end relationships constructively.

Coping with stress: 95% of all the diseases are created by stress. Wrong beliefs like "I'm not good enough" or "Something is wrong with me" cause up to 95% of all illness and disease. The membrane of the cell is the brain of the cell, not the nucleus. Our beliefs are stored in the membrane of our cells. Unless we are fully aware of what we are doing and why we are doing it at every moment, we are always acting on our unconscious programming stored as beliefs in our cells. Scientific research has established that stress is the core factor in physical, mental, and emotional disease. Discovering how unconscious physical, mental and emotional habits create stress, aging,

addiction and disease, through awareness and simple lifestyle changes reclaiming youthful vitality, joy and well being.

Coping with emotions: Emotional Factors in Mental well being our feelings are a wonderful barometer of our well being. When we are not caught up in negative thinking, our feelings remain positive, and we feel joyful, loving and peaceful. When we are feeling fearful, angry, or depressed it is a sure sign that our thoughts have become negative and dysfunctional. Developing this awareness and making the decision to eliminate negative thinking can be dramatically life changing. Alter your own brain chemistry with thoughts of appreciation, gratitude, joy and love.

We had many activities on each life skill to develop our skills. Many inspirational videos were shown to us regarding each skill which motivated each of us to a higher potential. For me the best skill was empathy as we could step on someone else's shoes and feel the way they felt. I learned a lot in each skill. I learned how to cope with my emotions and also feel the way others feel. Life skill has benefited a lot in helping me to cope up my stress and emotions and take life in a positive way.

We thank all the teachers for training us on life skills which benefited all of us to a greater level. We humbly thank Kristu Jayanti College for organising the training of life skills education.

## **FEEDBACK ANALYSIS**

On the whole, the students were elated and satisfied with the usefulness of the programme. One student who provided the feedback stated “It was a very unique experience that I will remember for a long time as it has taught me valuable skills that are truly unforgettable.”

### **REPORT**

**Beneficiaries:** I Semester PG students

**Date** : 19<sup>th</sup> -23<sup>rd</sup> June 2018

The Centre for Life Skills Education (CLSE), Kristu Jayanti College in collaboration with Rajiv Gandhi National Institute of Youth Development (RGNIYD), an Institute of National Importance under Ministry of Youth Affairs & Sports, Government of India organized a Capacity Building Training on Life Skills from 19th June 2018 to 23rd June 2018.

The course was conducted for Postgraduate Students. The certificate course consisted of ten core life skills promoted by World Health Organization (WHO), namely Self- awareness, Empathy, Creative Thinking, Critical Thinking, Problem Solving, Decision Making, Communication, Inter-Personal Relationship, Coping with Stress and Coping with Emotions. The session started with an introduction to Life skills by Dr. Jonas Richard A, Director Center for Life skills Education. The following session were taken by the faculty members of Kristu Jayanti College, respectively, Dr. S. Vijayanand, Dr. I. Jerry Richards, Ms. Apoorva U, Dr. Challaraj Emmanuel E. S, Dr. Emmanuel D, Dr. Elcey C. D, Dr. Sonia Angeline, Dr. Winnie Joyce, Dr. Selvam Arjunan, Mrs. Priya Akkara. The last session of feedback and valedictory was headed by Dr. Jonas Richard A. The ten core life skills which were promoted are very beneficial in constructing and polishing an individual's personality. These skills equip a person with the capabilities to lead a well-grounded life.

The faculty members who conducted the classes were trained by RGNIYD. Dr. Jonas Richard A, Director, Centre for Life Skills Education, Kristu Jayanti College stated that the main goal of conducting the classes was to help students to be happy and to adapt different life skills in order to respond positively to the demands of everyday life. He further said "For a person who is aiming to have a good career, the skills learnt in over the period of three days will help the

students to be better professionals and to lead a satisfying life, as they find balance between their professional and personal lives."

The purpose behind the three days programme was to help the students of first year Post Graduation to be prepared for their future in the college and it would help them cope with the initial stress as well as train them to be responsible citizens.

A person equipped with the knowledge of life skill has various opportunities in every endeavour of life as the person would be in a position to skillfully handle situations since he would be having a deep understanding about the matter.

In a world that has a surplus supply of candidates who are graduating each year on a search for acceptable job opportunities, life skills make one stand apart from the crowd. Life skill training would help the individual not only to be a good leader but also to be adjustable to any kind of situations in life.

REPORT ON SEMINAR  
TITLE: LOOKING AT EI IN THE AGE OF AI**

**Date:** 4 October 2018

**Classes Attended:** 1<sup>st</sup> year MBA, 180; 2<sup>nd</sup> year MBA/PGDM(119/43)

**Name and details of the Resource persons:** Mrs Kuppulakshmi Krishnamoorthy, Product Evangelist and Head ZOHO for Start-ups, Co-founder ZOHO Corporation

**Brief Write Up on the Programme:**

A seminar was conducted by Mrs Kuppulakshmi Krishnamurthy, Product Evangelist and Head ZOHO Corporation for start-ups, Co-founder. She explained why the students need to talk about EI. EI is nothing but how one feels and understand what other people 'feel and think'. She also explained the role of AI in the present era and the relevance of EI. She also shared some of her real-life experiences and definition of happiness she also quoted that 'success will not come at every point of time'. She shared her success story by explaining how from being a failure she pulled herself together to face all the challenges of life. The seminar helped the students gain an understanding of AI and the relevance of EI.
